

Shield Generation

To Generate a Shield, we can use the following steps:

1. Determine Guild
2. Determine Rarity
3. Determine Capacity
4. Determine Regeneration
5. Apply Guild Bonuses
6. Naming

Determine Guild

2d8	Guild
2	Vandal
3	Stormforged
4	Noctra
5	Dominion
6	Ordis
7	Ironwood Rangers
8	Wytchwyrd
9	NecroTek
10	Vow of Vending
11	Arkana
12	Flamekeepers
13	Banshee
14	Fortis
15	Ressurecta
16	Player Choice

Determine Rarity

D6	1	2	3	4	5	6
1	Common	Common	Common	Common	Uncommon	Rare
2	Common	Common	Common	Uncommon	Uncommon	Rare
3	Common	Common	Uncommon	Uncommon	Rare	Rare
4	Common	Uncommon	Uncommon	Rare	Rare	Epic
5	Uncommon	Uncommon	Rare	Rare	Epic	Legendary
6	Rare	Rare	Rare	Epic	Legendary	Legendary

Determine Capacity and Regeneration Score

Capacity	Common	Uncommon	Rare	Epic	Legendary
Tier 1	10	15	20	25	30
Tier 2	20	25	30	35	40
Tier 3	30	35	40	45	50
Regeneration Score	1 + INT	2 + INT	3 + INT	4 + INT	5 + INT

Regeneration Score does not change across tiers. It is possible for the Score to become negative. Should a player have a negative score, the regeneration will only function through the use of potions, talents, and other effects that grant shields. It will also return 5 minutes after a combat encounter/when depleted.
