

Chest Loot

(Caches, Lockers, Boxes, Treasure Chests, etc)

Anything of value that can be loot is organized by size. The size determines how many d6's a player will roll. The bigger the chesst, the more dice you roll, and the better the outcome

Chest Size	d6 Total
Small	1d6
Medium	2d6
Large	3d6
Giga	4d6

Loot

Tier 1 Table

D6 Roll Total	Loot
1	20g
2	Common Potion
3	Common Trinket
4	30g + Common Health Potion
5	30g + Common Shield Potion
6	30g + Common Gun
7	40g + Common Trinket
8	40g + Common Health Potion
9	40g + Common Shield Potion
10	40g + Uncommon Trinket
11	40g + Uncommon Spell
12	40g + Uncommon Spell
13	80g + Uncommon Melee Weapon
14	80g + Random Potion
15	80g + Random Potion + 2 Common Shield Potions
16	80g + Uncommon Melee Weapon + Uncommon Spell
17	90g + Uncommon Trinket + Uncommon Gun
18	100g + Uncommon Trinket + Uncommon Gun + Common Health Potion
19	100g + 2 Random Potions + Uncommon Melee Weapon
20	100g + Rare Spell

21	120g + Rare Melee Weapon
22	120g + Rare Gun + Random Trinket + 2 Common Shield Potions
23	150g + Epic Melee Weapon + Random Trinket + 2 Common Health Potions
24	200g + Epic Gun + Rare Potion + 3 Common Health Potions + Rare Shield

Table remains the same in Tier 2 and 3, except for gold.

Each gold amount gains +100 for each Tier

For example: Tier 1 rolled 1 is 20g, Tier 2 would be 120g, and Tier 3 would be 220g
